It shows how humans by interacting with particles can influence the fundamental field of energy at a distance, and, the interaction can be as simple as thought and intention, which is also a form of energy.

What to expect

You will be working with experienced Medical Qigong/Shamanic Chinese Medicine Practitioners, certified by Empty Mountain Institute and/or the International Institute of Medical Qigong. The treatments are gentle yet powerful and are specifically tailored to what each individual body, mind and spirit needs. Your practitioner will be doing an intake, so please be ready to give them the important details of your health history. They may also want to take a look at your tongue. You will need to be prepared to lie down to receive your session, so the practitioners can work their magic on you from a distance. Verbal dialogue is often an important aspect of the sessions as well.

Following the session, they will be asking for feedback and then recommending some prescription homework qigong exercises tailored precisely to your needs. In this way, you will be able to continue the healing journey after the session. It will be up to you if you would like to have one of the practitioners follow-up with you and continue receiving sessions.

Thank you! It is an invaluable gift for the Medical Qigong Therapy students to get real life experience. We will be extremely grateful to have you volunteer as a participant in our clinic.
